POCKETRACKER K12

SCHOOL ID TRACKING & DISCIPLINE SYSTEM

PockeTracker K12 is a mobile ID solution created to bring your school's information to your administrators at all times. With handhelds and portable printers you can scan students for photo identification and verify and print schedules, passes, warnings and detentions. **RapIDtrack K12** is the desktop software that pairs with PockeTracker K12. RapIDtrack K12 is used as a PC based tracking solution with an ID reader.

Mobile Administration

Access and manage information about your students with a quick ID scan or manual look up right on a mobile device.

Issue Detentions

Load in your school's behavior policy and enforce it with PockeTracker and RapIDtrack K12. Assign students to detention or issue them warnings.

Online or Offline Use

Communicate with your student database in real time online or work in offline mode and sync later.

Check Schedules

A quick tap of a button and your administration can view the schedule of any student.

Student History

View a student's entire violation history or search by date to view past violations.

Generate Reports

Generate the student reports your need quickly with the most up to date information at your fingertips.
